

## Stocking Distributors

1-2-3 Door Shield® products are available only through distributors. Your door and hardware supplier or construction materials supplier may order for you in minimum quantities (see here for minimum order quantities). Contact us if your supplier is unable to help you. If you need less than the minimum order quantities, you may contact one of our stocking distributors. They generally carry Door Shields to fit 3070 and 3080 doors and can provide these products in 5-pack cartons.
